

Arghya Mukherjee

Azure Cloud & DevOps Engineer

Kolkata, West Bengal, India • arghyamukherjee06@gmail.com • 062977 79497 • www.linkedin.com/in/arghyamuk66

Summary

Azure Cloud & DevOps Engineer with 4+ years of experience in architecting, automating, and managing enterprise-scale cloud infrastructure on Microsoft Azure. Proven expertise in Azure Migration, Azure Landing Zone implementation, Infrastructure as Code (Terraform), CI/CD pipeline engineering, Kubernetes, Linux administration, and cloud security. Skilled in building highly available, scalable, and secure cloud environments using Azure DevOps, Docker, Jenkins, GitHub Actions, Microsoft Intune, Entra ID, and Azure Lighthouse. Strong experience in cloud governance, automation, monitoring, networking, and optimizing mission-critical production workloads for performance, reliability, and operational efficiency.

Experience

Tata Consultancy Services, DevOps Engineer – Kolkata, India

Aug 2022 – present

- Designed and implemented Azure Landing Zones with governance and secure networking architecture
- Azure Migration projects including lift-and-shift and workload modernization
- Automated infrastructure provisioning using Terraform, PowerShell, and Azure DevOps pipelines
- Built and maintained CI/CD pipelines using Azure DevOps, Jenkins, GitHub Actions, and Git
- Managed containerized workloads using Docker and Kubernetes (AKS)
- Administered Microsoft Intune and Entra ID services including RBAC and Conditional Access
- Configured Azure networking services including VNet, NSG, VPN Gateway, Firewall, and DNS
- Implemented monitoring solutions using Azure Monitor, Log Analytics, and Application Insights

Skills

Cloud Platforms: Microsoft Azure, Azure DevOps

Cloud Governance: Azure Landing Zone, Azure Lighthouse, Entra ID, Intune

Infrastructure as Code: Terraform, ARM Templates

CI/CD & DevOps: Azure DevOps, Jenkins, GitHub Actions, Git

Containers: Docker, Kubernetes, AKS

Automation: PowerShell, Bash, Python

Networking: VNet, NSG, Azure Firewall, VPN Gateway, DNS

Monitoring: Azure Monitor, Log Analytics, Application Insights

Projects

Cloud Infrastructure Automation Platform

Developed Terraform-based Infrastructure as Code automation with Azure DevOps CI/CD integration.

Inventory Management Application

Developed a full-stack inventory application with Docker-based deployment and monitoring features.

Certifications

- Microsoft Azure Administrator Associate (AZ-104)
- Microsoft Azure Fundamentals (AZ-900)
- Microsoft Azure AI Engineer Associate
- Microsoft Azure AI Fundamentals
- Google Cloud Generative AI Leader

Education

BCA University of Burdwan, BCA in Computer Applications

Jan 2019 – Jan 2022

- CGPA: 7.51 / 10.0
